Unconscious Bias **Getting Real About Your Club's Culture**

Does your club provide a mutually supportive and positive learning environment—*for everyone?*

Mission statements don't create club culture. Members do. Prepare to challenge yourself as we:

- Use our Toastmasters skills to try and understand the world around us
- Explore racism in the context of a Toastmasters club meeting
- Discover how our club culture might be impacting our fellow Toastmasters and guests

Through discussion, exercises, and a real-life case study, we'll explore how to create a club culture that serves and lifts all members.

All are welcome! D6 Monthly Motivation aims to share powerful messages and help you transform these ideas into action. We welcome anyone on a journey to becoming a better communicator and leader.
