Have you ever wondered why you weren't selected for that job, or even why you didn't get the interview? We at [District 6](#) want to help!

We have put together a panel of experts who work in hiring people into their companies. Come listen to recruiters, managers and HR people talk about what they've seen out there in the wild west of job hunting. This is where you will be able to ask the questions you never get to ask in the interview process.
