What will you learn in Speechcraft?

By participating in a Speechcraft program, you will learn how to:

- Speak without fear in front of small and large groups of people
- Prepare effective speeches in a limited time frame
- Improve your presentation skills and win the respect and admiration of your colleagues
- Lead effective meetings and increase your management potential

How will Speechcraft meet your needs?

The Speechcraft program: Is designed for beginners in public speaking

- Is a hands-on program that provides the “how-to” and practical experience in public speaking and leadership
- Is cost effective; the cost for our 4 week Speechcraft workshop is \$25
 - (will be applied toward Toastmasters membership if you join our club at the end)
- Promotes an atmosphere of professional camaraderie dedicated to personal improvement

How does the Program work?

Each Speechcraft participant experiences a wide range of communication experiences. Each participant receives a Toastmasters Speechcraft Handbook and other valuable reference materials. The initial prepared speeches are designed with the novice speaker in mind. No experience is needed. A variety of assigned short speeches help participants develop competency. During each meeting a short impromptu speaking session is conducted to help participants learn to think and speak effectively on their feet. After giving a prepared speech, each participant receives a constructive speech evaluation. Upon completion of the basic course, you will have the option to continue your training at our Toastmasters Club.
